### Linking Digital Education Services

# TrainSpot

### **Train-the-trainer hotspot of the National Education Platform** in the field of adult- and continuing education (TrainSpot2)

TrainSpot will provide a service that will help teachers find the right training to further their competence. They will get recommended offers from different providers without having to browse through them individually.

## As a train-thetrainer provider

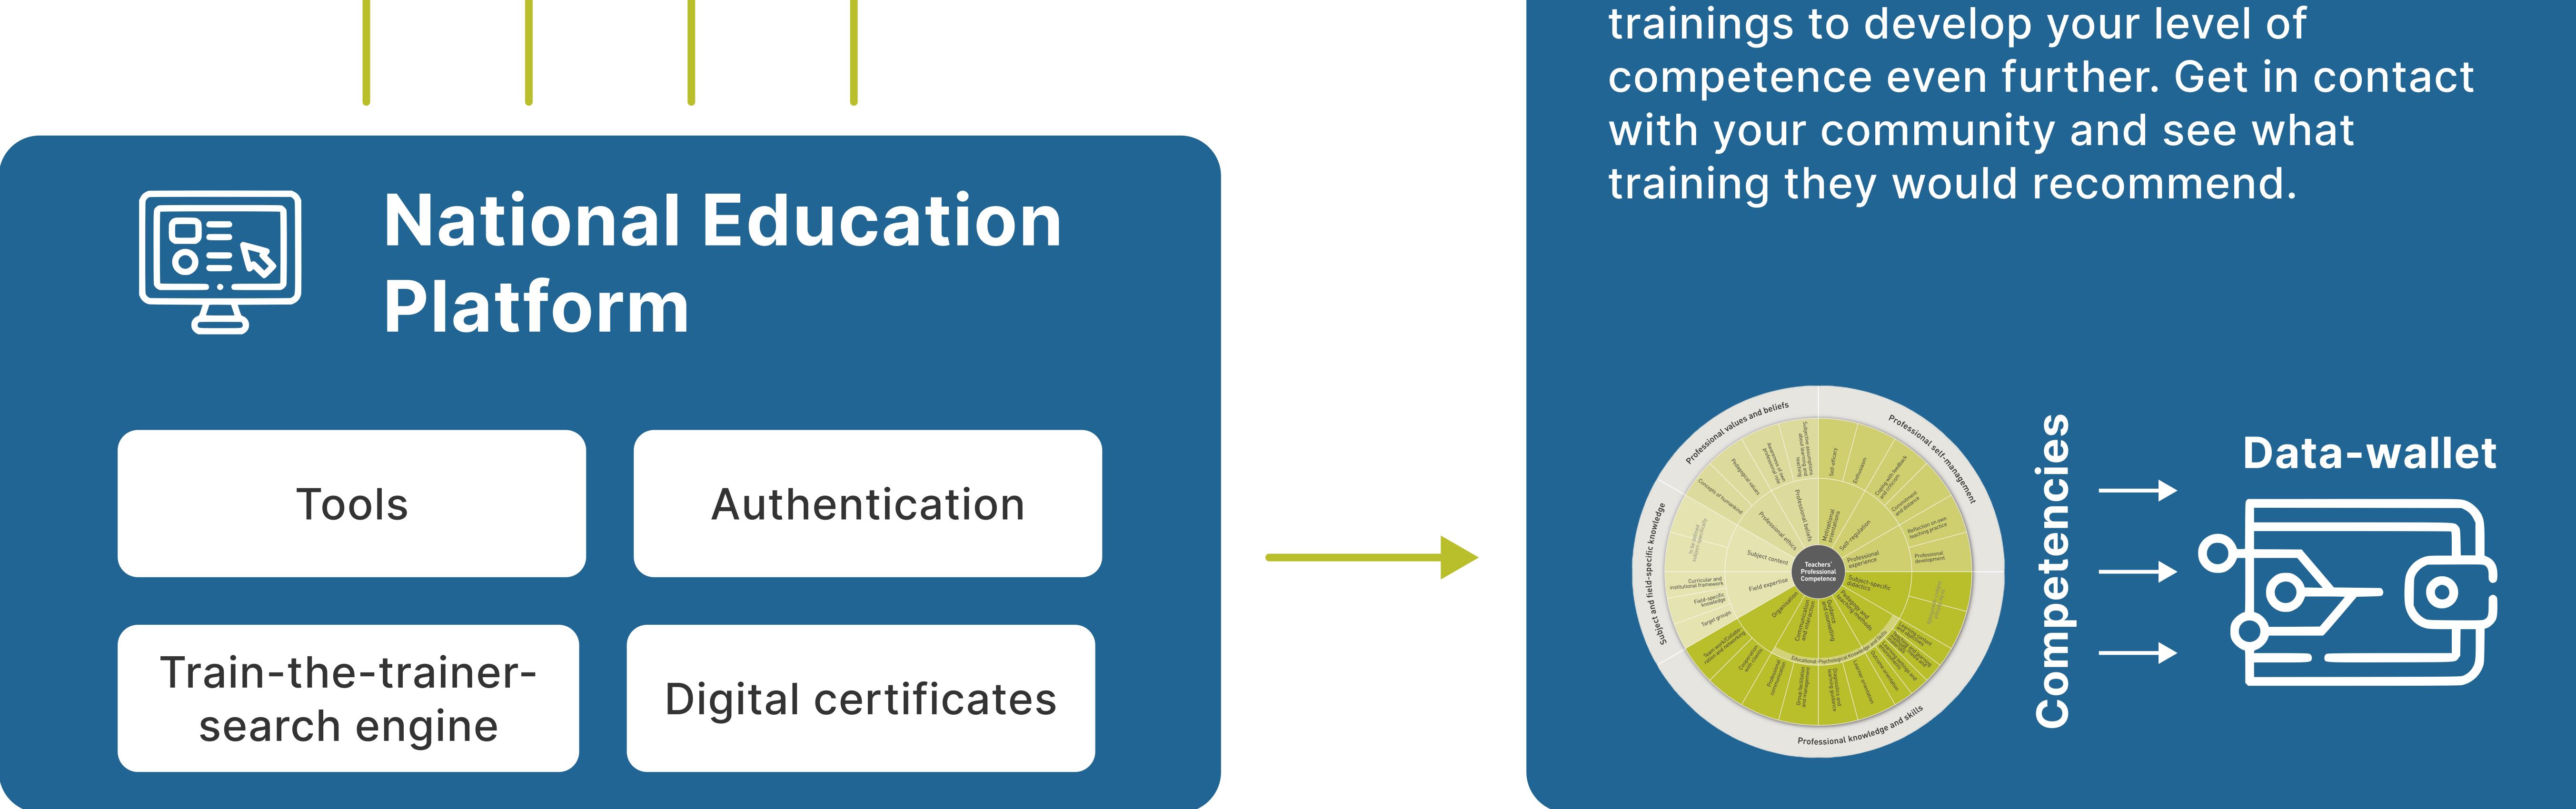

As a train-the-trainer provider you will be able to map your trainings with GRETA competence model and use this platform to attract more learners from all over Germany.

Community

As a learner you will be able to use the **GRETA** competence model to find
